[More About Us](#)

Welcome to the August 2012 issue of the Pacamor Kubar Bearings (PKB) ball bearing and mechanical motion newsletter.

PKB is pleased to announce our latest quality certification. The PKB factory has been quality certified to AS9100:2004 for a number of years and just upgraded to the most recent issue of AS9100:2009. As of the June ISO recertification audit, PKB is now ISO 9001:2008 & AS9100:2009.

I hope you find this month's topic of interest. In order to ensure prompt and uninterrupted delivery to your mailbox, please join our mailing list.

Sincerely,

Nancy Cogliandro

PACAMOR KUBAR BEARINGS (PKB) EXPANDS AS9100 / ISO 9001 CERTIFICATIONS

[Pacamor Kubar Bearings](#) (PKB) is pleased to announce that they have successfully completed recertification to [ISO 9001:2008](#) and [AS9100:2009](#). This certification represents an upgrade to the company's previous AS9100:2004 classification.

To achieve certification, PKB demonstrated a comprehensive and effective quality management system that governs all areas of its operation. PKB was evaluated throughout every phase of the manufacturing process, including procurement, production, and testing to accounting, logistics, information systems and human resources. The latest analysis also included a thorough audit of all policies and practices, confirming that they are applied with a commitment towards ongoing improvement. The quality system assessment was completed at PKB's Troy, New York facility on April 4, 2012, including a review of all special capabilities necessary to develop and/or manufacture miniature and instrument [ball bearings for the aerospace industry](#).

The AS9100 standard is an Aerospace Industry Specification derived from ISO 9001. The AS9100:2009 standard specifies the quality management system requirements for suppliers to the Defense, Aviation, and Space Industry. This upgraded AS9100:2009 standard supplements ISO 9001 by addressing the specific additional expectations of the aerospace industry, with special focus on improved quality, schedule, and cost performance.

QUALITY MANAGEMENT SYSTEM
CERTIFIED BY DNV
== ISO 9001 \ AS9100 ==

Edward M. Osta, Executive Vice President, states "This certification is confirmation of Pacamor Kubar Bearings' superior quality in operations and process-driven excellence to ensure customer satisfaction. Our AS9100 and ISO 9001 Certifications, along with our FAA TSO-C149 Aircraft Bearings Certification, are necessary for PKB's continued growth in this important industry. ISO 9001:2008 and AS9100:2009 Certifications recognize our Quality System as being on par with the best quality systems in the aerospace industry. These certifications enhance the confidence of our current customers in our capabilities while providing us access to contracts only obtainable by AS9100 accredited organizations."

Pacamor Kubar Bearings manufactures high performance DFARS compliant miniature and instrument ball bearings for the aerospace, defense, medical, dental, industrial, and commercial industries. Customers include major aerospace manufacturers and key resellers as well as various national laboratories and prestigious government organizations such as the National Aeronautics and Space Administration (NASA). PKB provides these industries with precision ball bearings, including those with unique designs and materials used at cryogenic temperatures. PKB maintains an

in-house FAA-DMIR for urgent aerospace bearing deliveries.

The entire line of PKB products is available direct from the manufacturer by contacting 518-283-8002 (www.pacamor.com) Pacamor Kubar Bearings offers the right bearing at the right price for all your radial, miniature precision, and instrument applications.

Pacamor Kubar Bearings is a domestic manufacturer of high precision miniature and instrument bearings and offers over 40 years of expertise in radial ball bearings.

Located in Troy, NY, Pacamor Kubar Bearings is one of the few American owned and operated miniature and instrument [ball bearing manufacturers](#).

PKB ANNUAL DENTAL BEARING SUMMER SALE!!
